Announcing a one week pre-college class in

**Sustainable Farming and Food Systems**

for High School students – July 9–15, 2017

You are invited to join one of the leading university Sustainable Food and Farming programs in the nation to experience college living, while learning about the local food system, gaining hands-on experience in organic farming, and earning college credit from UMass!

The class includes FIELD TRIPS to local farms as well as an immersion experience in a UMass project growing organic food for local food-relief organizations. Students will explore their personal relationships to food, participate and lead each other in activities to deepen their understanding of how to grow food AND how to be better advocates for food systems change.

**Fees for One-Week Pre-college Intensive**

- Program fee (with 1 academic credit): $725
- One time Registration fee: $47
- Housing and full meal plan: $510
- Activity fee: $45
  
  Total for one week: **$1,327**
